## *Spring Summer Collection 2023*

As the days stretch out, warmer, longer, and lighter, filling with the fresh energy of spring and entrancing promise of a never-ending summer, Emporio Sirenuse celebrates the art of travel, in style.

Eclectic, vibrant, and infused with that elusive *je ne sais quoi* of life in Positano, the SS23 Collection transforms creative treasures from around the globe into a world of its own.

A world where vintage glamour and nonchalant elegance mingle with the heady experimentalism of avant-garde art and light-at-heart attitude of contemporary luxury, where the palm-lined boulevards of Miami blur into the tropical blooms of Hawaii, and the Dolce Vita of the Amalfi Coast topples into the wake of floating dreams.

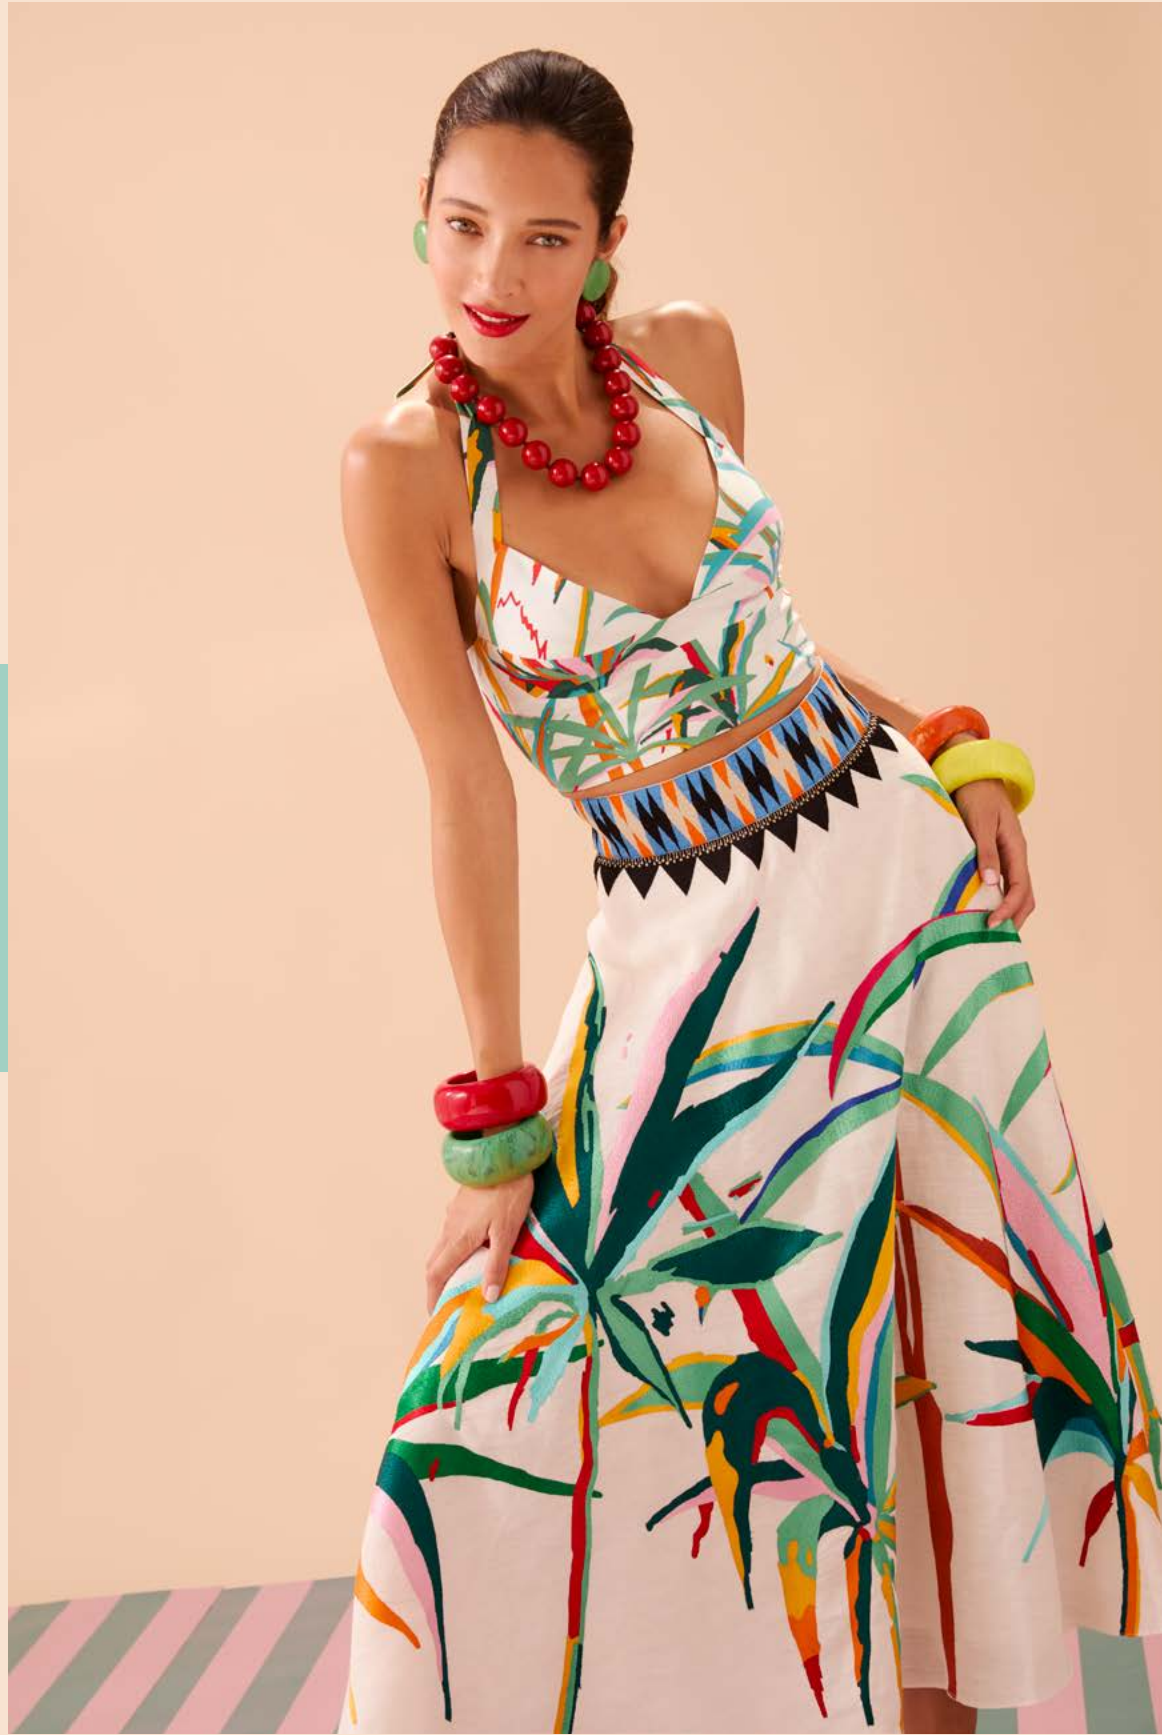

Dancing over ballooning sleeves, gorgeous full skirts and elegant caftans, exquisitely stitched palm fronds and prickly cacti evoke the lush decadence of island hideaways and glowing textures of the desert, while abstract colour compositions bring the disruptive spirit of Italian Pop Art to 60s-inspired halter dresses, crop tops and high-waisted skirts, and bright, handwoven Ikat stripes reinterpret retrò sailing style with playful irreverence.

But it is not only about pattern. Adding to the brand's repertoire of master crafted embroidery and exclusive prints on handloom linens, airy cotton voile and the finest Italian Poplin, a new jersey knit capsule brings monochrome creations to the fore. Draped, knotted or tied, bare-backed or off-the-shoulder, the stunning silhouettes and saturated primary colours of this intriguing story channel anything from divine goddess looks to those of sultry 70s divas for a distinctly sensual take on summer style.

So, here's to a sunshine season of dream destinations in Emporio Sirenuse.
